That Was Depressed Owing to Rumors of a New Competing Line-Activity in Local Trade Circles.

At New York, yesterday, call loans were ensy at 2021/2 per cent; last loan, 2 per cent. Prime mercantile paper, 4@5 per cent. Sterling exchange was heavy, with actual business in bankers' bills at \$4.87% for demand, and \$4.84%@4.84% for sixty days; posted rates, \$4.85 and \$4.881/2; commercial

bills, \$4.831/2@4.84. Silver certificates were 591/26601/2c; bar silver, 59%c; Mexican dollars, 47%c. Bar silver, at London, was firm at 27%d per

The stock market threw off its lethargy yesterday in a very impressive manner. There was quite an active demand for stocks from the start, in the shape of buying orders accumulated over night, and the demand gathered volume and urgency pretty steadily throughout the day. The rise was so considerable at some points as to invite profit-taking, but offers on this account were absorbed with such confidence that the selling soon ceased and the market closed with an upward course of prices and burst of animation at the best prices of the day. Although there was substantial increase in calls from outside interests, many orders coming by telegraph from different points in the country, as well as from sources outside the ranks of the habitual speculators, the market must still be described as largely professional The strength was also, to a great extent, spotty. That is to say comparatively few stocks or groups of stocks rose buoyantly, while the larger part of the list moved in more sedate manner, but still upward. But while this is true of a perspective view of Fine Winter Weather and Better the whole market, there was nevertheless a notable broadening out in speculative interests, not only through the partially active list, but embracing many dormant stocks. It has been manifest for some time that the floating supply of stocks was small, and that prices moved easily on any considerable demand, but this and everything else seemed unavailing to invite | goods now being well disposed of. On Commisany considerable demand. Even the obvious unwillingness of prices to go down and the determined ignoring of depressing influences, reflected from the London market have seemed, until yesterday, to be viewed with apathy by the speculative public These events have, of coure, tended to building up a confidence in the stability of values, and apparently it needed only some special incident to crystallize sentiment into an active buying movement. The action of the directors of the American Steel and Wire Company, Monday, in setting aside a year's dividend for the common stock at the rate of 7 per cent., and the handsome showing presented in the balance sheet of

coalers. In the railroad list, the grangers and all the Pacific and Southwestern stocks were in notable demand, but the whole list was strong. The only thing to account for the sudden drop of 11% in Pittsburg, Cincinnati, Chicago & St. Louis, was a report of a new Pittsburg-Chicago Chesapeake & Ohio was heavy, perhaps in sympathy. The first two hours of trading recorded as many sales as the recent average for a full day's business. While the market is still largely professional, the calibre of the operators is obviously much heavier than those recently in evidence, individual transactions of a thousand shares and

last year's business was the effective in-

cident. There was a rush to buy American Steel and Wire at the opening, and quota-

tions were a full point apart on running

sales. The stock scored a subsequent ad-

vance which carried it up an extreme five

points. Its net gain was 4%c. This ag-

gressive strength had marked sympathetic

on account of the extreme depression from

which they have long suffered. There was

a large demand from eager shorts in

Sugar, and the prevailing cold weather re-

suited in a sudden jump in the price of the

upward being frequently recorded. Bonds showed increased activity and were strong throughout. Total sales, at value, were \$1,940,000. United States fours, regular, advanced %c, and

United States old fours, coupon, 1/4c in the bid price.

Moving Wenther Wenkened Corn, and Oats Were Lifeless-Pro-

CHICAGO, Jan. 30 .- Persistent liquidation animated by disappointing cables, a report that La Plata offered Liverpool under America and the assertion that the plague in Argentina would not materially curtail exports from there turned the scale against the wheat bulls to-day, May closing 1/20%0 under yesterday. Corn closed 4c and oats 1/3c lower. Provisions at the close were 5@1216c depressed.

May wheat opened at 60@69%c, compared with yesterday's close at 69%@69%c. Liverpool's advance was a disappointment, and Paris was decidedly lower, which influenced considerable selling. May gradually receded to 681/2c, where trade, which had been fairly active, became quiet, and for some time the market fluctuated between that figure and 68%@68%c, the latter mark being touched by the May option on Bradstreet's announcement of a heavy decrease in the visible. On the heels of this, however, came a report from Liverpool that La Plata wheat was being offered lower than American. It was further asserted that the plague in Argentina would not materially curtal exports from that country. The heavy liquidation which followed these reports sent May to 67%c, at which it closed on a very weak market, 11/201%c under yesterday. Primary receipts were 359,-000 bushels, against 594,000 last year. Minneapolis and Duluth reported 294 cars, compared with 218 last week and 450 a year ago. Receipts here were forty-five cars, none of which graded contract. Atlantic port clearances in wheat and flour were equal to 190,000 busnels. The corn market was dull and lower.

weather for movement and sympathy with wheat sales amounting to 500,000 bushels. Receipts here were 463 cars. May ranged from 33 to 323/46827%c, closing at the bottom. 4c under yesterday. The trade in oats was quiet and without feature. The weakness of other grains was the factor. The cash demand was tame,

ceipts were 271 cars. May ranged from 23%@231/2c to 231/4@23%c, closing at the bottom, 1/sc depressed. Provisions were weak and lower. The weakness of hogs was partly responsible for this, but the report of Orange Judd Farmer that there were six-tenths per cent. more hogs in the country now than at the same period last year was the main consideration. The demand was slack through out the session. May pork sold for \$10.70 to \$10.60@10.621/2 and closed 121/2c under yesterday at \$10.621/2. May lard, \$5.921/2 to \$5.85@ 5.871/2, with the close 5/071/2c depressed at \$5.871/2, and May ribs \$5.721/2 to \$5.671/2, clos-

ing 5@71/2c down at \$5.671/2@5.70. Estimated receipts to-morrow: Wheat, 38 cars; corn, 375 cars; oats, 185 cars; hogs, 37,000 head. Leading futures ranged as follows:

UNION STOCKYARDS, INDIANAPOLIS. Jan. 30 .- There is a good improvement to report in the receipts of horses for the beginning of the auction sales this week compared with the same time last week, and a decrease of about 200 compared with the corresponding time a year ago. Nearly 200 head were offered in the auction to-day and a few of all kinds were represented. but there is a continued scarcity of highclass animals. The arrivals were principally chunks, drafters and workers, and the quality was as good as a week ago. There was a very fair attendance of both domestic and foreign buyers, and the market opened with the bidding reasonably active. The few first sales, as usual, were apparently below the expectations of owners, but soon the competition became brisk and the offerings were selling at what PARKERSBURG, W. Va., Jan. 30.-The were considered their full market value. The class of coach horses offered sold around \$100 to \$125 per head, heavy horses at \$100 to \$150, chunks at \$65 to \$90 and Southerners and drivers at \$35 to \$90. A good clearance was made at current prices.
